Measuring our Food in Metres not Miles

The stunning local countryside is where we source much of our produce. Our menus are designed to reflect the best seasonally available food this famous agricultural area has to offer. We believe in the provenance and quality of all our food. We have a philosophy of 'measuring our food in metres not miles'. We focus our food on the south west and it's great produce.

Our Farm

Situated 2 miles from The Queens Arms is our smallholding. We use our eggs and pigs in our dishes.

Game

The pub is at the heart of over 30 local shoots. During the season we receive a number of partridges, pheasants and fallow deer from our local gamekeepers.

Kitchen Garden

Our chef works with our neighbour to provide us with locally grown seasonal fruit and vegetables.

Herb Garden

An abundance of herbs are available from our private herb garden.
